SUMMARY

Dynamic and detail-oriented Software & Web Engineer with over 5 years of experience in full-stack development. Specialised in enhancing performance, user experience, and operational efficiency. Proven ability to manage end-to-end deployment processes, optimise workflows, and collaborate cross-functionally to ensure successful project delivery.

EXPERIENCE

Full Stack Software Engineer | Safe Code | August 2024 - March 2025 | Docklands, VIC

- Designed and maintained full-stack web applications using **C#, .NET, JavaScript, jQuery, and SQL**, delivering tailored solutions for novated leasing and salary packaging services.
- Improved front-end functionality and user satisfaction by **optimising JavaScript and integrating interactive jQuery components**.
- **Enhanced operational efficiency by 20%** by resolving live issues and providing backend debugging.
- **Managed CI/CD pipeline processes using Azure DevOps**, including automated builds and testing, ensuring smoother and more efficient deployments.

eCommerce Specialist | Asahi Beverages | December 2023 - August 2024 | Southbank, VIC

- **Managed the localisation and deployment** of a staff platform in New Zealand, ensuring a successful market launch.
- **Improved website performance and user experience using HTML and CSS**.
- **Used Google Analytics to track KPIs**, optimising inventory and aligning with projected demand.
- **Reduced cart abandonment by implementing automated workflows with Klaviyo**.

eCommerce Developer | L'Oréal Australia | January 2022 - December 2023 | Melbourne, VIC

- **Resolved front-end technical issues** and conducted extensive testing, contributing to the [L'Oréal Partner Shop](#) Australia launch.
- **Managed image curation and editing using Adobe Photoshop** for high-quality visual content.
- **Developed a [Python application](#)** to automate image resizing and optimise performance.
- **Facilitated cross-functional collaboration** between the Paris Head Office, designers, and marketing teams, ensuring alignment on goals, deadlines, and design specifications for smooth project execution.
